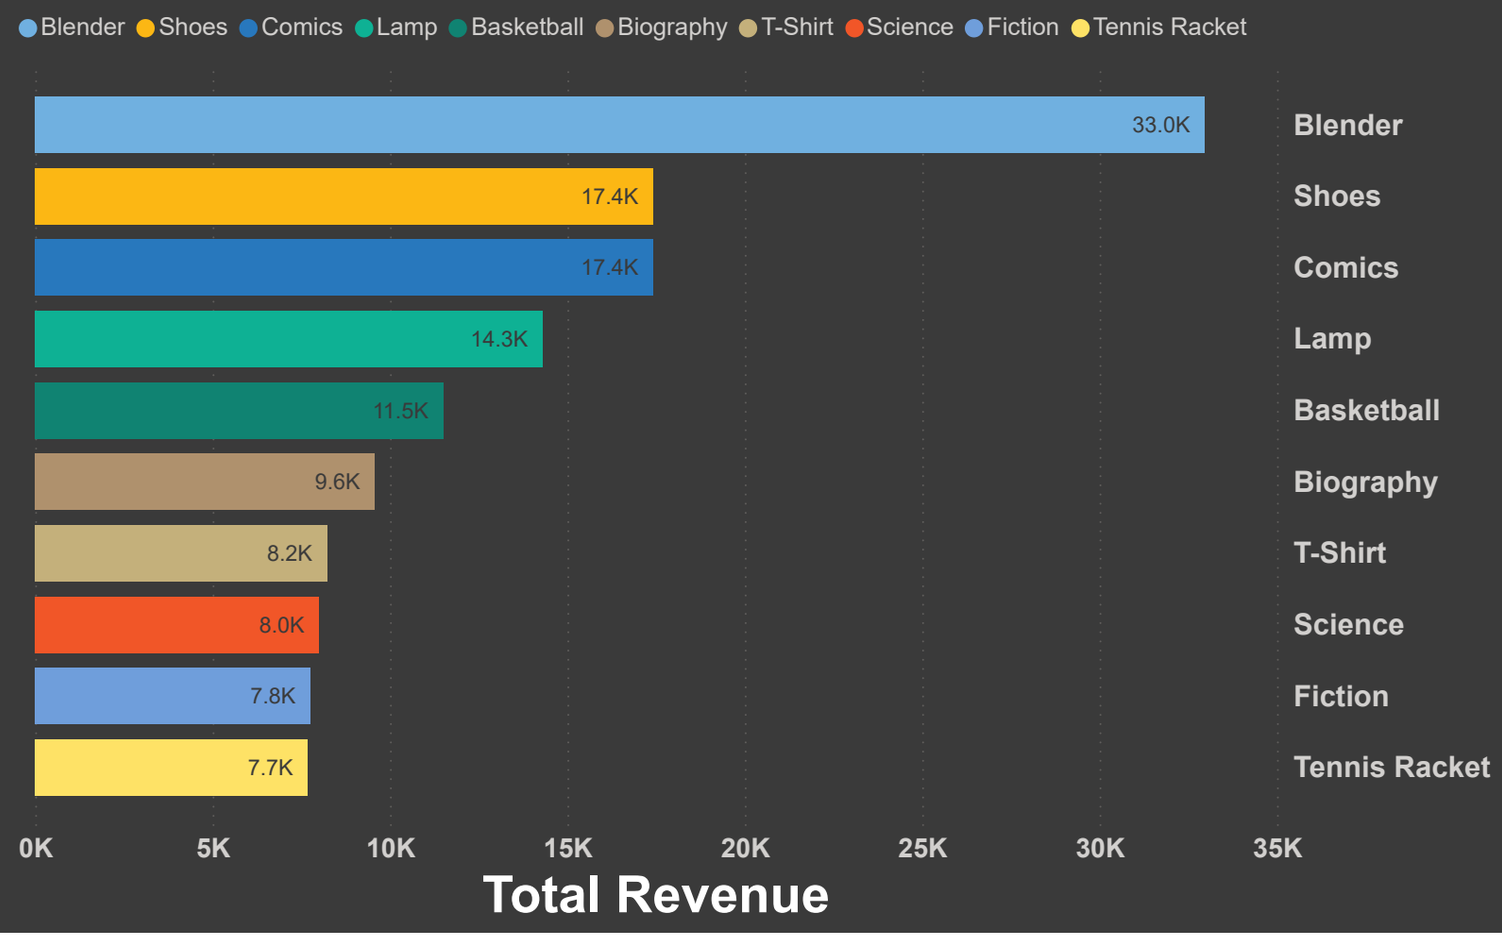
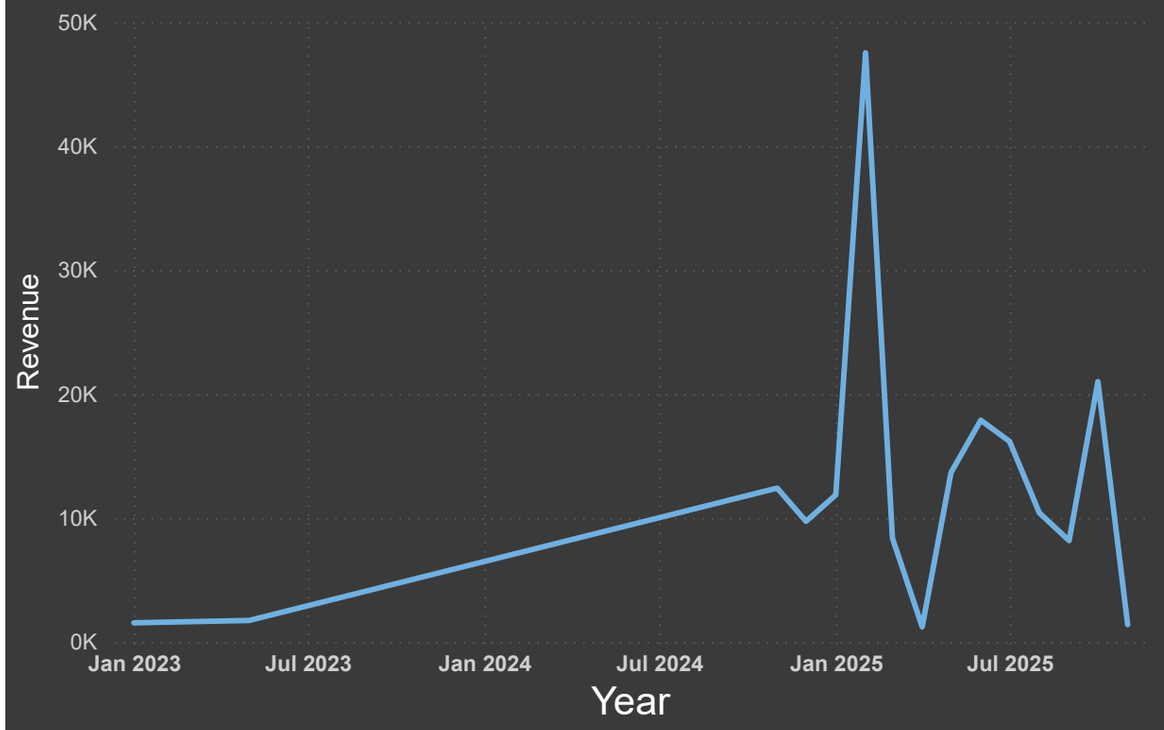
Vacuum	6,753.87
Smartphone	6,181.08
Football	5,707.19
Yoga Mat	5,694.50
Jeans	5,189.61
Jacket	4,299.52
Smartwatch	3,424.12
Total	1,82,957.54



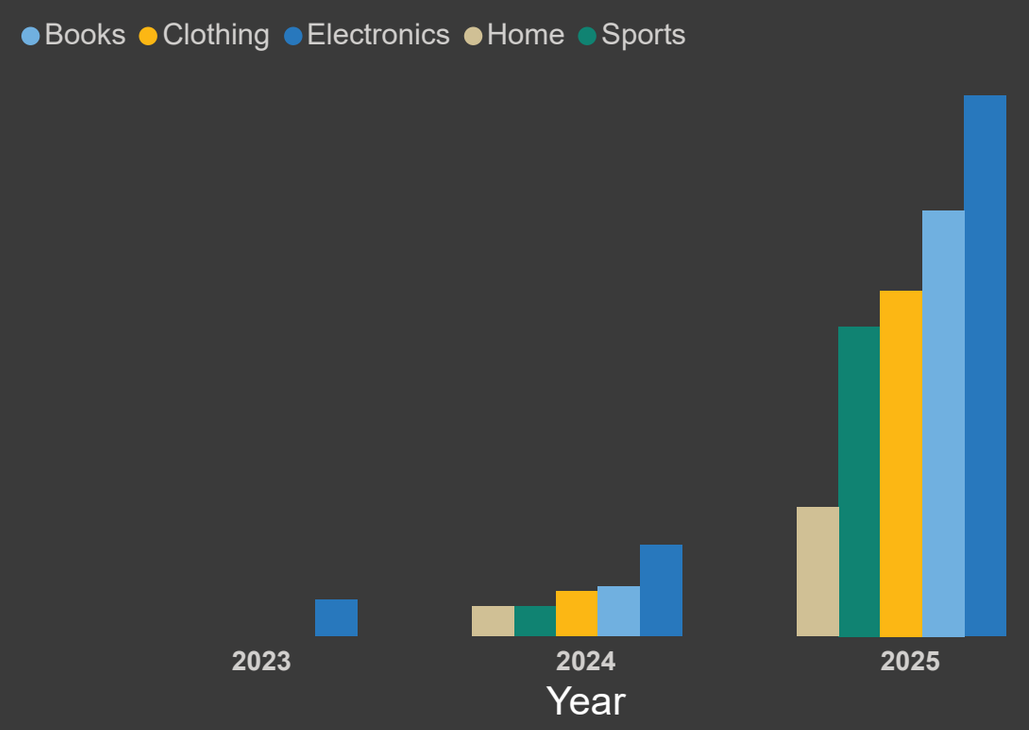
Quick measure

Revenue Trend Over Time



- Revenue shows noticeable fluctuations, with sharp peaks and dips rather than a smooth trend.
- High Points: Strong spikes appear around mid-November and early December, suggesting seasonal demand or promotional impact.
- Low Points: Clear drops are visible in late November and again in late December, indicating possible post-peak slowdowns.

Annual category-wise revenue split



Category	Revenue	Year	Month
Electronics	32,400.23	2025	February
Books	11,516.04	2025	June
Clothing	9,892.10	2025	October
Books	7,056.80	2025	February
Sports	6,714.18	2025	September
Sports	6,090.32	2025	August
Clothing	5,772.75	2025	May
Books	5,744.68	2025	January
Books	5,740.77	2025	July
Total	**1,82,957.54**		

- Year-wise revenue analysis by category.
- Select any year bar for monthly breakdown for that particular year.
- Electronic category covered the entire 2023 revenue share and also dominated the next two years.
- Drill down to check monthly split, where electronics remains strong in the month of FEB 2025.
- Books category performed well in 2025 in the month of JUN and JUL and clothing dominated OCT and NOV.

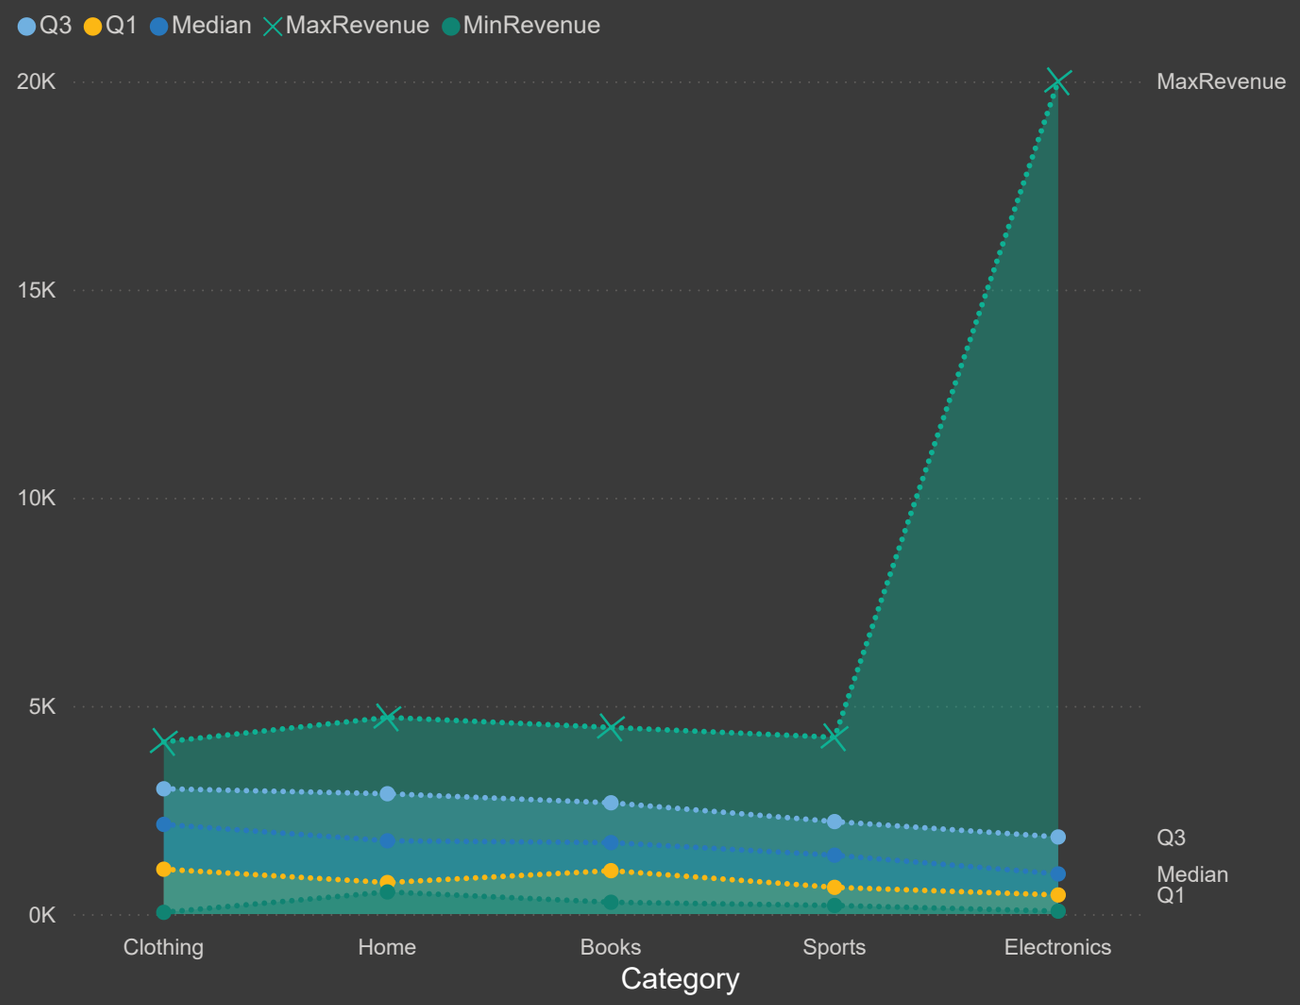
Finding Outlier

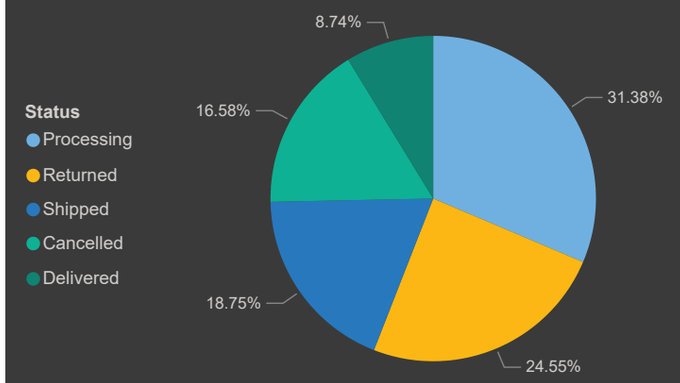


Category	Q3	Q1	Median	MaxRevenue	MinRevenue
Clothing	3,008.52	1,076.70	2,153.40	4,133.85	40.95
Home	2,889.61	757.01	1,759.45	4,722.70	531.06
Books	2,672.18	1,041.96	1,716.20	4,481.90	282.98
Sports	2,220.53	641.27	1,413.63	4,245.35	206.19
Electronics	1,851.15	458.45	963.80	20,000.00	69.48
Total	**2,650.74**	**727.85**	**1,416.42**	**20,000.00**	**40.95**

- The isolated cross points at the top most part of the graph represents the outlier value
- Revenue has an outlier near 20,000 which is far above our typical range.
- which shows greater variability, suggesting inconsistent transaction values.
- Minimum Revenue (MinRevenue): The lowest recorded revenue value, indicating the baseline performance.
- Maximum Revenue (Maxrevenue): The highest recorded revenue value, representing peak performance.
- First Quartile (Q1): The 25th percentile, showing the point below which one-quarter of revenues fall.
- Median: The 50th percentile, marking the central value that divides the dataset into two equal halves.
- Third Quartile (Q3): The 75th percentile, showing the point below which three-quarters of revenues fall.

Quick measure

Revenue Rate by Status



Status	netoutcome	Total Revenue
Cancelled	Loss	30,327.54
Delivered	Gain	15,998.45
Processing	inprogress	57,414.08
Returned	Loss	44,921.69
Shipped	inprogress	34,295.78
Total		**1,82,957.54**

- Net Revenue shows a modest **8.7%** increase, driven entirely by delivered items.
- Nearly **50%** of potential revenue remains on hold due to long processing times and slower shipping speeds.
- About **41%** of revenue was lost because of heavy cancellations and a high volume of returned items.
